AR BookFinder Keycodes

Your school's keycode enables you to search for AR books housed within your library. When you enter the keycode and select the <GO> button, a fifth tab will appear labeled "Teacher Lists". These lists are specific to your school and are updated periodically by Information and Library Services.

If you choose not to use this option, all other search options will encompass ALL of the AR books within Renaissance Learning and you still won't know if your school library has the title or not!
