Entering Reading Practice Goals

NOTE: A teacher manages goals for his/her classroom. The teacher-librarian, in consultation with the staff, determines the marking periods. The marking period must be set before goals can be activated. Marking periods may not overlap.

IMPORTANT: Goals should be set in consultation with the student.

Follow the steps below to enter three types of goals—Average Percent Correct, Points, and Book Level.

Login with your teacher username and password. From the < Accelerated Reader >tile, select, < Record Books and Goals >.

Note:

- The GE (Test Date) and Suggested ZPD will be populated if a student has taken a STAR Reading test before the goals are entered.
- If you identify the amount of **Daily Reading time** (the GE and Suggested Date must be populated), the program will automatically calculate the suggest points goal.
- If the GE and Suggested ZPD are <u>not</u> populated, you may use the Goal Calculator link to help you determine a starting point.
- Once you have student data from the **Reading Practice Diagnostic Report** and **Student Record Report**, you should use this information...along with a student conference...to help inform realistic goals.
- Remember to include students in the setting of goals so that they take ownership for them.
